

PowerLite™ Pinner HN25C

MAX PowerLite 400 psi system

MAX developed the world's first high-pressure pneumatic nailing system and introduced it to the Japanese market in 1994. For the past decade the MAX PowerLite 400 psi system has revolutionized the construction industry in Japan. Powered by the 400 psi technology, the MAX PowerLite tools are approximately 40% lighter and 20% smaller than most competitors tools without sacrificing power. Now, the MAX PowerLite system is available in the U.S. market. Experience the Next Generation in nailing technology with MAX.
